App Tips and Tricks

- The Menu icon is the easiest way to navigate content. When in doubt, click the Menu circle.
- The Events/Articles/Menu bar switches between the top and bottom of the app.
- Logging in to the app using your MSDC credentials opens ALL content. Eventually non-members and guests will only see some content.
- You can contact other users and block other users through events. Think of it as a safe chat feature to connect with colleague
- Works for virtual and in-person events.
