

AMA DELEGATES

Peter Lavine, MD

Dr. Peter Lavine is an Orthopaedic Surgeon in private practice in Maryland, Virginia, and the District of Columbia. He has been in private practice since 1991 and in his career he has acquired direct practice management and scope of practice experience in solo practice, small group practice and now large group practice settings.

Since 1992, Dr. Lavine has represented MSDC physicians and their patients at the American Medical Association (AMA). Dr. Lavine currently serves as the MSDC AMA Delegation Chair. He has served on the AMA Council on Medical Service, Southeastern Delegation Executive Committee, Young Physicians Section and as member of several reference committees. He has also been the author of numerous successful AMA House of Delegates resolutions.

At the Medical Society of the District of Columbia, Dr. Lavine has served as President and Chair of the Board of Directors as well as Chair of the Young Physicians Section. Dr. Lavine is a long-time MSDC member and Board member. In the past, he has been appointed to DC Mayor Fenty's Emergency Preparedness Task Force and DC Councilman Catania's Medical Liability Task Force.

Raymond K. Tu, MD, MS, FACR

As a native Washingtonian, DC resident, and physician, Dr. Raymond Tu enjoys serving as a member of the Medical Society of the District of Columbia Board of Directors representing District physicians. He has been a member of the Medical Society since 2003, joined the Board in 2013, served as President and currently serves as Treasurer and AMA Alternate Delegate. He previously served on Mayor Bowser's Health Transformation Task Force, DC Board of Medicine, Telemedicine Task Force and Health Information Exchange Policy Board ensuring that the physician voice is heard.

Dr. Tu is finishing his term as Chief Medical Officer at United Medical Center, where he also served as Chair of Radiology. Next, he will be joining the MedStar team. He is affiliated with Bridgepoint HealthCare and United Medical Center, is a Clinical Associate Professor of Radiology at The George Washington University and is active in leadership roles at several radiology organizations.
